

# Installation Guide for WooCommerce

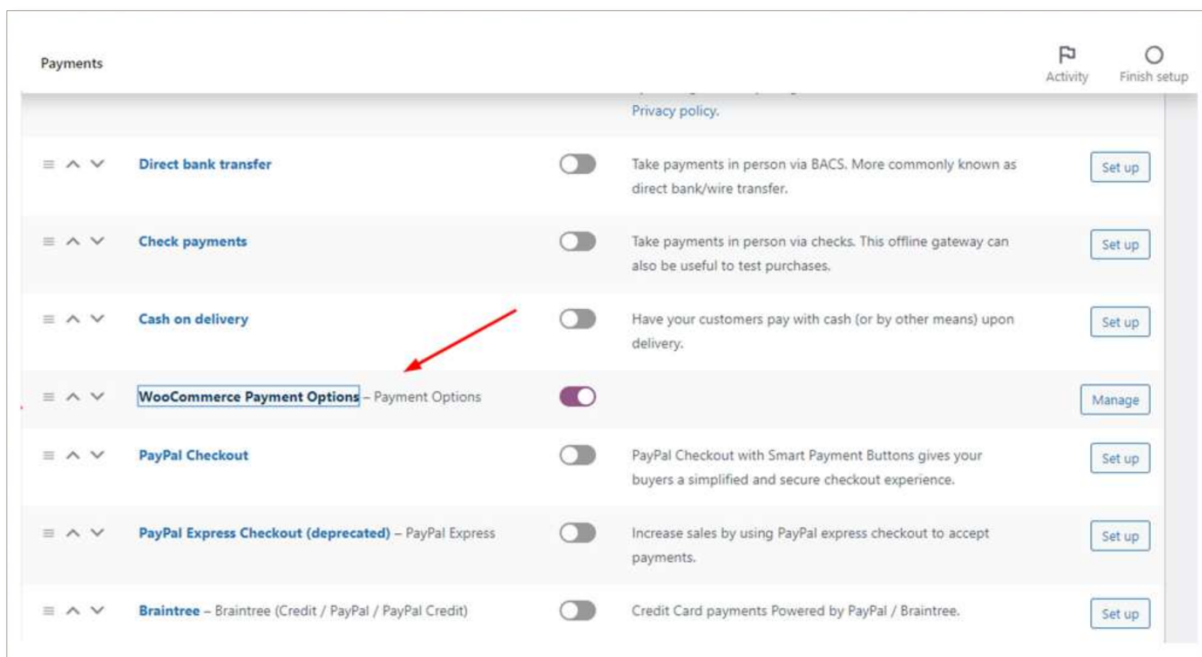

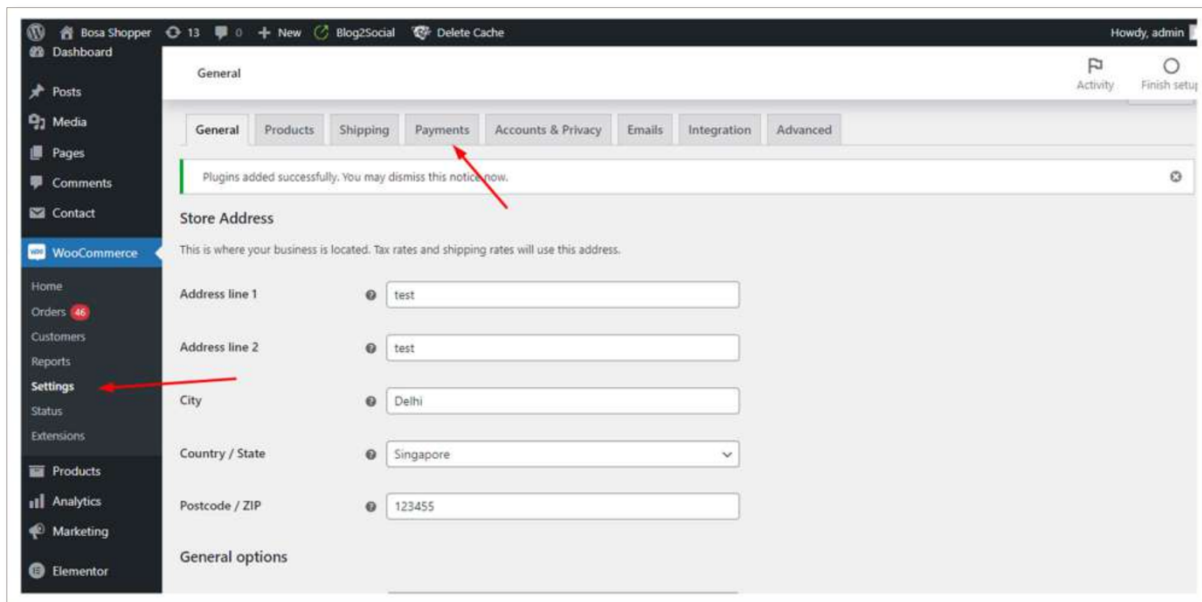

## • Steps for Manual Installation

1. First, you need to download the plugin from the source (which will be a zip file).  
Next, you need to go to the WordPress admin area and visit Plugins  
» Add New page.
2. After that, click on the 'Upload Plugin' button on top of the page.
3. This will reveal the plugin upload form. Here you need to click on the 'Choose File' button and select the plugin file you downloaded earlier to your computer.
4. After you have selected the file, you need to click on the 'Install Now' button.
5. WordPress will now upload the plugin file from your computer and install it for you. You will see a success message like this after the installation is finished.
6. Once installed, you need to click on the Activate Plugin link to start using the plugin.
7. After activation, you need to enable plugin & configure payment options like Merchant ID, API key provided by payment options.
8. After configured, click the 'Save' button.

### Payment Options Plugin Settings

Enable/Disable

☒ Enable Payment Options Plugin

Title

Enter a title to be displayed on the checkout page

Description

Enter a description to be displayed on the checkout page

Cards Scheme Icons

☐ Visa
☐ MasterCard
☐ JCB

Select the card icons to display on the checkout page.

Sandbox Mode

☒ Allows you to test a payment processor without having to pay the transaction you have submitted

Merchant ID

Enter the Merchant ID provided by Payment Options

API URL

Enter the API URL provided by Payment Options

API Key

Enter the API key provided by Payment Options

Auto Capture

☒ Auto Capture

Customers can use this setting to capture all authorized payments automatically. This eliminates the time and effort spent manually capturing payments.
